## **Haworth hosts glass design Mimolimit**

Prague, June 15<sup>th</sup> 2007

**Mimolimit, the design studio led by Bára Škorpilová, presents its glass design at the Haworth showroom. The exhibition can be seen from June 12<sup>th</sup> on the area of 450 m<sup>2</sup> amidst The Park office center in Prague, Chodov. The display ends on August 31<sup>st</sup> 2007.**

*“The Mimolimit design in general and the work of Bára Škorpilová in particular is, in my opinion, the best design work you can currently see in the Czech Republic. We are deeply honoured to host her exhibit. It added a new dimension to our company’s rooms,”* says Petr Štěpán, branch manager of Haworth Czech, about the display.

Bára Škorpilová, a VŠUP (Academy of Arts, Architecture and Design, Prague) graduate, started in a basement in Prague with designing furniture for her friends. Seven years ago, her schoolmate and she founded the Mimolimit studio. Besides planning family villas and arranging furnishings of various hotels and flats, they devise glass design. *“And that’s what we decided to display in Chodov at the Haworth showroom. We are very fond of this collaboration,”* adds the assistant Pavla Slavíčková and claims that Bára Škorpilová would like to make exhibits more often in the future.

Those interested can not only see the exhibits, but also buy them. Opening hours of the showroom are from 8.30AM to 5PM every working day. After previous arrangement, it is possible to visit the show room at any given time.

### **About Mimolimit studio**

Mimolimit is an architecture and design studio founded in 2001 by Barbora Škorpilová and Jan Nedvěd. The name Mimolimit (Outoflimit) means everything that surpasses the boundaries of ordinariness and standard. The aesthetics of the studio is framed by the unity of beauty in diversity, concerning not only spatial, material and colour solutions, but also the way the light is treated. The work of the studio is aimed to design, interior production and architecture. Hotels, restaurants and residential buildings comprise the majority of the projects.
